

Tender Heart – Margao Children’s Day Centre – April 2009

With a view of helping more underprivileged and disadvantaged Dalit children at risk, we started our Day Care Centre in Goa was opened on 1st of April. Our aim is to provide medical attention, food, education, and the chance to change a child’s future.

The reason we started Day Care Centre in Margao is that Margao is the commercial city of Goa situated in the south where the main railway passes through, bringing with it countless migrants. Their children wander around the city begging and working for measly sums of money, usually only to satisfy their parents alcohol addictions. Others pass their time sniffing solvents or getting into trouble with shop owners and police. They have no access to education or proper healthcare, do not have birth certificates as their parents do not know this has to be done.

We want help any child irrespective of background or religion who is in distress and at risk. All the children who are coming have a desire to learn.

Thank you Cliffe Mission, AMEN and King’s Church for making it happen.

Francis and Alison
