PRAISES AND THANKSGIVING

1. I praise the Lord for the negative results of my brain MRI. This meant a lot to me. It stopped me from worrying that something was wrong with my brain. I thank MMP for helping me with my bill for MRI.
2. My dizziness has improved also, praise the Lord; it is not yet perfect but with the improvement I have been able to do more things like helping around the house and in ministry.
3. I also thank the Lord for the publication of Jannette's book entitled "The Rhetorics of Sin". It is the Lord who really facilitated everything so that this book has come through.
4. I praise the Lord for all the brethren in MMP who came to visit and pray for me during those times when my health was down and my days were dark. They truly comforted me. Thanks also for all the brethren in AMEN and for all of you, for upholding me in prayer.

Many thanks to Gareth and Malou, Chris and Sandra Lemming, Janet White, and Chris Chatfield for your unwavering support not only in prayer but in financial gifts as well. You are our champions. Thanks again for your confidence in me and in MMP.

PRAYER REQUESTS

1. I am still fighting my acid reflux. I consulted a gastroenterologist yesterday and he prescribed me three kinds of medicines for the next three months. Please pray the medicines will work for me. Meds are rather expensive too. Pray for a full recovery for my tinnitus and dizziness. Pray that I'd be able to sleep well every night.
2. Pray for wisdom and ministry opportunities for me. I particularly want to have opportunities in evangelism and Bible studies among U.P. students alongside the work through COLF. I look forward to a fruitful ministry in 2012.
3. The last week of February I will be leading the Silent Retreat for MMP missionaries. This is a three-day retreat. Please pray for anointing and strength.
4. Please pray for wisdom as Jannette and I continue to lead our children to the knowledge of the Lord and to effective practical living.
5. Please pray for wisdom also as I help make important decisions in MMP.
6. Anya will review for the University of the Philippines Admission Test in August please pray for a helpful review.
7. Pray for Asher's direction toward his career.
8. Ariel Lev plans to shift to studies in French and Japanese languages. Please pray for her application for transfer to the Diliman campus.

Every blessing,

Winston
