

SEMI SCHOOL BAG DISTRIBUTION REPORT 2017

Dear Friends

As earlier this year also there were so many poor and needy children found some source to go to school. We distributed 50 bags, some cash award, rice, and cloths. Students from our Sunday school mostly received these items. They all thanked God for opening a help during their school time.

These children come to our Sunday school, they grow in discipline in the school and at home.

In the bottom left picture you see 3 girls with a boy. The two tallest girls in the picture were abandoned by their parents - the mother becoming a prostitute and the father going off with other women. We asked one of our friends to look after them in their home. SEMI helped them get to school by providing them with school bags. They are good students and also help a lot at our Sunday school. The boy in this picture is suffering from cancer. He is a muslim boy whose parents got in touch with me through my TV ministry. We helped this boy to go school. So a big thank you to AMEN supporters for your valuable prayer and help towards these and many others.

Yours for SEMI Children ministry

Roy & Ponna
