

Elion News June 2017

Dear Brothers and sisters,

We would like to thank you for all your support and prayers for us and for the ELION Media Ministry. We appreciate your love and friendship and praise God for having you in our lives.

At this moment, we are working on several different projects - Sasko is working on the Community Bible Study Serbia video presentation and Ira is translating the Bible study material for the book of Acts.

Also, the Elion Media has received an approval from Dr. Jeffress to translate and publish up to 1,000 copies of his book "Not all roads lead to heaven" on Royalty-Free basis, but we still need finances for translation and publishing. Please pray with us for God to provide the necessary funds and if you feel lead by the Lord to help us with publishing this book, do let us know.

You can watch the latest video by ELION Media that Sasko recently made with a drone for the HUB Bible school. Enjoy the beautiful scenes of this video, specifically made to show the building exterior and environment.

This year will be exactly 10 years since we moved to Belgrade from the Bible school and started the ELION Media Ministry. Although we have been serving faithfully Christian organisations and churches all these years, we would still like to see an ELION Media Centre. So, please pray with us that God will lead our ministry and provide for all the necessary needs in order to build the ELION Media Centre with a Christian TV and Christian radio through which the Gospel could be powerfully proclaimed.

Thank you so much for your faithful prayers and support over all these years. We appreciate that greatly!

We wish you a peaceful and beautiful summer.

In Christ,

Saško and Ira Bogeski
