INVESTING IN THE PRESENT,  
CHANGING THE FUTURE!

## Our weekly programs...

We want to introduce you to Gods work through Perspective Daneş. So, please come and join us for a normal week and enjoy every day and every program; enjoy through the eyes of kids, teens and widowed ladies!

### Monday

Usually we start with planning and looking at the week ahead. Today you will discover three programs:

**Hockey/ Floorball meeting.** For almost 30 young boys and few girls we have a special way to communicate with them and to connect with them using sport. Unihockey is not very popular in Romania, and that means it is something new and they are interested and curious about it. After that we have snacks and drinks and small talks to create relationships. Their age is between 10 up to 13 years old and the strategy is to create a base group for next few years. In 2-3 years they will be the teenage group at the Community Center! In June this year we want to take them for a one week camp with the intention to expose them more systematically to the Gospel and to help them to grow in the relationship with Christ.

**Widows Support Group.** Almost 20 ladies, 65+ years old are registered in the program and every Monday evening they are coming together. Fun, games, sometimes movies, craft, are the things they enjoy the most. Most of them are alone, because their children are married and moved out the village. It is a good opportunity for them to socialise and to encourage each other! This spring time we want to organise a special trip to a monastery. In Romanian orthodox culture it is very important moment. It will be a good way for this age group to understand the importance of God in their lives.

**Valchid Children Program.** One of the poorest villages with a very large group of kids. We're talking about more than 80 kids coming once per week for fun, Bible stories and some snacks at our activities. It is a project that started a couple of weeks ago and the idea is to support and teach them about the importance of education and also about God's love for them. We are very happy because the local school is open for us and encourages them to be part of our programs. It is a village 12km from Danes - far away! God is expanding our influence and our field of work!

*To be continued...*

Next newsletter will continue to bring informations about the other activities and programs!

## **BE PART!**

Now you have a better view of our weekly routine! Which program do you want be a part of? Maybe you can add to your prayer list, you can share about it with your friends and church, maybe you want to know more specifically about one of the activities, or you want to come as a volunteer. We also want to invite you to become a partner by supporting monthly God's work in Romania!

With 3 € per day you can cover one lunch for one child!

With 25€ you can cover the cost of the snacks for the preteens group or for the widows support group for one week!

With 50€ per month you can support a young student to not give up with school!

We invite you to be the one of our supporters!
