

Report from Grace and Light - Nigeria

Thank you very much to everyone who donated to AMEN for the food appeal - this started us on this noble task of supporting the needy in this time of lockdown. The benefits are enormous as many people that came for the food items kept praising the Lord. We also had some support from two other organisations

With this money we were able to buy the following:

- Corn
- Rice
- Gari (made from Cassava)
- Sugar
- Beans
- Maggi (Seasoning)

We packaged these food items and shared them in two locations for 102 households – these were poor families that we invited. There were also others that came and wanted food - we got their name and we are trusting God, that if the lockdown continues, we will find more support to call them for some food.

The people who came for the food also received teaching about the COVID-19 virus
