

Through AMEN's involvement in Romania we have got to know Magda and Catalin, they are an amazing couple who share the love of Jesus in their own community among the extremely poor and needy.

Among their ministries Magda runs a children's nursery with a team in a room attached to a small village church. Magda writes "The nursery school has 29 children registered, at least 20 of the children attend daily. Every day they are given a hot meal with fruits, we teach them about Jesus and how big he is and how good he is. We give our best to show the love of God and we also prepare them for school. It is especially important for us to give a good education for them".
