08.03.2022 STEP TOWARDS DREAM

Дорогие любий и Елена!

Мы безгранично благодарны вам за ваше открытое, любящее сердце, которое умеет сострадать и помогать людям в труднейшие моменты.

Наша любимая Украина и наш город Николаев подвергается уничтожению российскими агрессорами. Бомбят города, убивают мирных жителей, детей мы - беженцы, вынуждены бросать свои дома и спасать детей, уезжая из Украины. Пусть бог благословит всех ваших детей, ваших друзей и всех людей за милосердие, помощь, любовь к нам.

Никогда не забудем, будем вам благодарны. Храни вас бог. Наташа, Таня, Маша.

Dear Liviu and Elena,

we are infinitely grateful for your loving and caring heart, which is able to help and have compassion with people in situations like this. Our dear Ukraine and our city will be destroyed by the russian aggression. They bomb children and peaceful people. We had to leave our houses to save our children and to leave Ukraine. May God bless you and your children, your friends and the whole country Rumania for your lovingkindness, help and love towards us. We will never forget how you helped us, we will always be thankful. May God keep and beware you, Natalia, Tanya, Mascha.

Trauma. Stress. Hopeless.

We drove almost 1000 km to get to Chisinau, the capital of Moldova, and came back with 27 refugees. We hosted a second group of refugees in our center, about 13 people and 7 of them were children. A baby and an elderly person with special needs were part of this group. The emotional health of the mothers was not the best; their husbands stayed to fight in a bad area in Ukraine. They were planning to travel to Poland but had no money to buy tickets because in Romania just one bank is exchanging Ukrainian money, and you need to book a time at the bank a few days before, and there is a limit how much you can exchange. Everything else is more difficult for them and us because they spoke just Ukrainian.

4 kids! Very happy to be able to offer
them for few days a safe place!
Thank you for being part with us!**

One mother told their three children that they were going in a vacation, in hopes not to realize the true situation and be afraid. Together with her family used to bake bread and cook food and delivering it to soldiers in the area where they used to live. The soldiers told them that if one day they come and can't find them, to take their family and run. That is exactly what they did! They loaded their small car with a few belongings and travelled for 3 days to the border of Romania. They had to wait 18 hours in line to pass through the border, and for three nights five people slept in the car. They rested for a little bit and travelled to Germany.

They are running from a war and most of them don't know where to go...they decide while traveling or when opportunities arise. We send a family to Montenegro to some friends of friends. We did help the family that travelled to Germany with partially covering the costs for plane tickets and we know that they arrived there safely.

"The family T... arrived save in Germany.

They have there own small apartment in a house of a Christian family.

The fathers family (P...) says that the people, where they can stay are like angels.

They are already registered officially, start to learn the language and the kids can go
to school soon.

They are well supported in there new place from different people around them."

Jens, our great friend from Germany

In the following days more refugees will come to Romania and we will
continue to help when and where is needed, with transport, food,
organizing traveling to other countries, etc.

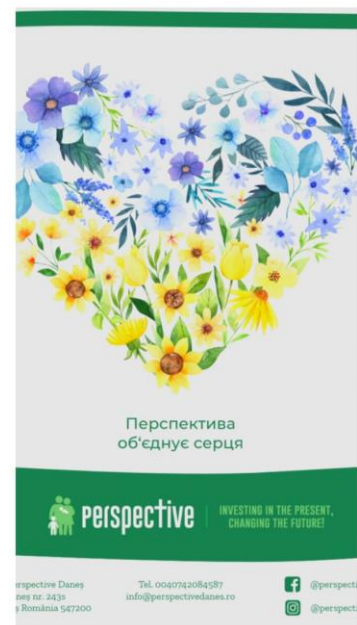

WELCOME KID Kit

This entire situation it's so hard for any adult, so just imagine how hard it is for a child. Trauma, stress, new country and language, new people, separation from fathers and members of the larger family. It's difficult for mothers to talk about hope for the future to their children.

We have the idea to encourage and serve in a special way to children. We want to prepare 500 bags filled with a few things that bring joy and colour, love and care in

the lives of these children that had to leave everything behind. Coloring books, pencils, toys, fruits, sweets, toothpaste, tooth brush, shampoo, tissues...these are a few things we want to put in a bag. We want to add a welcome letter in Ukrainian language and a printed therapeutic story for children.

We estimate a cost of 5 to 7 Euros per bag. We are planning to be in contact with organizations in our area that helps refugees to be able to bless every refugee child, not just the ones that come in direct contact with us. If we will be able to raise more money than the cost for the 500 bags, we'll probably go to the border and share them with the families that come into Romania.
