

The heat is on here in the Philippines, the temperature averages from 40-51 degrees Celsius; this is on the danger range that cause heat stroke and other related sickness.

Despite of such situation we manage to continue the Bible Studies and home visitation to the youth and their families especially in the celebration of Mother's Day in the country.

We have reached youth then touched the hearts of the families. God made them changed and make them new.

I also got the chance to attend a training for trainers for the Department of Education new curriculum and I bumped to a school head who happens to be a good friend of my late father Pastor Joe; I was touched on her concern and wonderful memories on my father and SIKATT ministry in the campus. Truly the Lord is at work in the campuses even to the principals.

Praise the Lord for the following:

Protection from heat stroke despite of the dangerous temperature in the country.

Continuous conduct of home bible studies.

School Heads that remembered my father's ministry in the campus.

High grades and passed the comprehensive exam.

Pray for:

Provision for my graduation fees and publishing fee (for my thesis paper).

Wisdom for my final defense and for the ministry activities.

Protection from extreme heat.

Provision for the Sport's Camp and leaders Retreat this June.

Spiritual growth of the scholars and families.

Attached are pictures of me and the school head; family bible studies & fellowships.

Psalm 23:6a "Surely goodness and mercy shall follow me all the days of my life"
